

TRIDIM[®]

Fungicide

Product Name:	Tridim [®]
Product Type:	Fungicide
Active Constituent:	250g/L Triadimenol
Resistance group:	3
Formulation:	Emulsifiable Concentrate (EC)
Pack Size:	5L & 1L

How does Tridim work

Tridim is a **Group 3** acropetally systemic fungicide meaning it moves in an upwards direction throughout the plant. Hence Tridim will ensure new shoots are protected. This fungicide group works by preventing fungus from developing cell membranes. Without the membranes, cells cannot be made and thus the fungus dies.

Uses for Tridim

Tridim is registered for use on the following diseases at the rate of **60mL per 100m²**:

Take All Patch

Dollar Spot

Black Helmo

Winter Fusarium

**Available in 1L and 5L
bottles**
